

2013 Mosquito Control Protocol

BOH Nuisance Spray request

- 1) The resident should contact the HD with requests regarding nuisance spraying for mosquitoes.
- 2) The process will be explained to the citizen. The request form will be on the Health Department's website under Mosquito Control Info 2013.
- 3) It will be suggested that the citizen provide written notice of support from the majority of the neighborhood.
- 4) The Health Department will scan and send the request to NEMMC and the other BOH members, whether truck spraying would be appropriate in a specific neighborhood. This is expected to be an opinion based on their knowledge of the Town.
- 6) All feedback from NEMMC will be sent to the Board via email.
- 7) A decision will be made and a response given to the person submitting the request. If approved, a time frame for application will be supplied.
- 9) NEMMC will conduct area specific spray and let HD know when it has been completed.
